

Druid Den Puppy Training

Puppy Board and Train

For puppies 8 weeks - 4 months old

Why Board and Train? Why start so young?

History is everything! By starting so young, it's at a great advantage giving your puppy a jump-start on good behavior and house-training with no prior history established. This allows me to use my positive reinforcement training skills, as well as, my shaping and conditioning skills to help set your puppy up on the pathway to autonomy! I offer a private in-home experience that helps accommodate and facilitate real life, everyday scenarios for your pups.

Brief about Me

I'm Ashley, trainer at Druid Den. It is a mission and goal of mine, to help bridge the language barrier between humans and their dogs. To bring patience, understanding and hope to anyone just trying to figure out the new day to day, with a new puppy. Being a dog lover my whole life and training for 10 +years, I have dedicated myself to being the best I can be for them and you.

Thank you for taking the time to consider Druid Den Puppy Training!

I look forward to meeting you and your puppy!

It's not where you walk, It's who walks with you.

What to Expect From The Druid Den Training Program

| How to Receive trained Puppy | <p>You have the option when training is complete, to have your puppy delivered to you. The cost of home delivery is fixed rate. You may also schedule to pick your puppy up from the trainers home.</p> |

Peace Of Mind

From my initial assessment, I start to understand your puppy's personality, behavior, and training needs. I'll be able to give you training notes, videos and pictures of your puppy during their training stay! I have a structured daily routine that includes training sessions, socialization activities, playtime, walks and rest. Progress reports once a week to keep you in the loop and a final evaluation upon completion of program. A packet comes home with your puppy along with a 1 hour transfer of information and demonstration of your puppy's hard work!

Reward Based Training

All programs are reward based and positive reinforcement. I use a variety of high value training treats and toys to incentivize good behavior and good decision making! I recommend having high value treats on you as often as you can, as this will aid you greatly in helping your pup grow and reach autonomy. My Motto is "They are always learning, I am always teaching!"
